INSTALLING ESSENTIAL OIL BOTTLES

Note: Although most 15ml essential oil bottles will work with your AromaTru diffuser, not all will fit properly. To ensure your bottles will fit, we recommend using our AromaTru USDA Organic or Wildcrafted essential oils.

To install essential oils, first remove Cover. Then remove Atomizer head by pulling up and out. Unscrew the oil bottle cap, remove the clear plug and screw the Atomizer Head onto the bottle.

Re-attach Atomizer Head to Atomizer Post and push down firmly.

Plug the wall adapter into an electrical outlet and plug the other end into the AromaTru device. The unit will be ready to use. Before starting to diffuse oil, please read the section, "Diffusing for the First Time."

Caution: If the oil bottle you are using has an orifice reducer (clear plug), remove the orifice reducer before installing the oil bottle. Only use oil bottles that fit the unit.

MANUALLY DIFFUSING ESSENTIAL OILS

1. Install essential oil bottles (see previous page for how to install).
2. Press the power button to activate unit.
3. Select the diffusing time by pressing the **Diffuse for** button.
This is the time the unit will continually diffuse each selected oil.
4. Select the time between diffusing by pressing the **Diffuse every** button.
5. Press the **Timer** button to select for how long you want to diffuse oil.
6. Select the oils you want to diffuse.
7. Replace the Cover.

Note: As soon as a diffusing time and 1 oil has been selected, the AromaTru will start diffusing. You can change any of the settings during diffusing.

DIFFUSING MULTIPLE OILS

It is possible to select between 1 to 4 oils to diffuse at a time. The way the AromaTru diffuses multiple oils is by diffusing them one at a time.

If, for example, the following program has been selected:

Diffuse for 10 seconds

Diffuse every 60 seconds

Timer is set to 30 minutes

Oil slots 1, 2, and 3 have been selected

AromaTru will diffuse the oils in the following way:

Slot 1 will diffuse for 10 seconds, followed by slot 2 for 10 seconds, followed by slot 3 for 10 seconds.

There will be a rest time of 60 seconds before slot 1 begins again.

This cycle will continue for 30 minutes until the end of the Timer.

Note: It is possible to change the slot number and timer setting anytime during diffusion.

MAINTENANCE

CLEANING THE ATOMIZER

To clean the AromaTru atomizers, attach the AromaTru Cleaning Solution (included with device) to the atomizer and use the control panel to set the **Diffuse for** button to 20 seconds, the **Diffuser every** button to 30 seconds, and let the Cleaning Solution run for 5 minutes. Repeat for each atomizer. Once finished, replace the Cleaning Solution with oils of your choice and use normally.

To prevent clogging due to more viscous essential oils, diffuse the Cleaning Solution every 1-3 months as needed, according to frequency of use. May also be used to clean the external surfaces of the diffuser.
